

Herbal Aloe Hand Cream

Nourish your hands with the moisture of aloe.

Hands are stripped of their natural moisture every time you wash them or expose them to the elements. Some hand creams can leave you feeling sticky and greasy; others don't provide enough moisture.

Herbal Aloe Hand Cream, the newest addition to the Herbalife line of aloe products, leaves hands feeling silky smooth without a heavy residue feeling. Specially formulated for dry skin, this rich cream helps restore moisture, leaving hands looking and feeling healthy. A blend of grape-seed oil, vegetable glycerin, and aloe vera makes for a non-oily, yet effective, formula.

The Herbal Aloe Hand Cream bears The International Aloe Science Council (IASC) seal of approval for aloe content and purity found in this product.

DISCUSSION POINTS

- Aloe vera is a conditioning soothing agent.
- Combined with Vitamin E (antioxidant), Vitamin A (moisturizing, skin-conditioning agent), glycerin (helps retain moisture) and natural extracts including Meadowsweet, Grape Leaf and Black Currant for a silky smooth, non-greasy formula.
- Carries the IASC seal of approval.
- New fresh scent.

DID YOU KNOW?

Every time you shake someone's hand you're making an impression. Herbal Aloe Hand Cream leaves hands feeling silky smooth and healthy.

FAST FACTS

- Herbal Aloe Hand Cream bears the IASC seal of approval for aloe content and purity.
- Use throughout the day to keep hands silky smooth and soft.
- Perfect to keep next to each sink in your home, in your purse or briefcase, in the office and in your car.
- Use along with the other Herbal Aloe products for maximum benefit.
- Most women keep themselves surrounded by hand cream. One is not enough. We have found that women genuinely have a hand cream in their purse, in their car, at their desk, near the kitchen sink and on their nightstand.
